KOTESASHI YAYOI'S RARE CAR FILES

file 001 Suzuki Fronte Coupe

This is the first car we freshmen restored.
Well, the third years salvaged it and did most of the work on it first though.
At the time it was sold everyone thought "Young people want coupes!,"
so the roof is low and the rear seats are cramped.
It was originally designed by master designer Giugiaro, like Abbie-senpai said,
but there are rumors Giugiaro's original design idea
was entirely taken over by Suzuki's internal design team.
A tiny, short body with a 37 horsepower 2 stroke engine stuffed in it,
in baseball terms it'd be a Shortstop. For some reason I don't quite understand,
Miss Ichiko specifically chose this car for us first years to restore and take care of.
